REMARKS

This is UNEVALUATED

On 15 April, 6 May and 3 June 1954, no troops were observed at Leipzig-Mockau airfield. The airfield was still being used for training with gliders of types Schay and Pionier. According to a poster of the Athletic and Technical Association, air contests with model aircraft and gliders were scheduled to be held during the summer months. A temporary hangar-like building, about 25 meters long, probably for glider aircraft, had been newly erected between the firing range and the workshop.

25X1

Comment. No changes were observed at Mockau airfield near Leipzig. The field is not used for military purposes.
